Scan to TIFF format

4 Scan – to Network

Scan to TIFF/JPEG/PDF file format

5 ImagePROGRAF Print Utility Available¹

iOS-based app allows users to print PDF files wirelessly, directly from an iPad® to the imagePROGRAF printer.

¹Available on AppStore®. Compatible with iPad 2 or later, running iOS 6.1 or later. Data charges may apply. Printed output will be same size as original file. Mobile device and large format printer must utilize the same network. Printer must be connected to the same router that mobile device is connected to via wireless capability. Wireless performance may vary based on terrain and distance between the printer and wireless network clients. In order to print from imagePROGRAF Print Utility, user must open their PDF file in another, supported iPad app. Then, the user would select "Open in" and choose the print utility app.
